Seasonal Field Technician: Ellensburg

Salary
DOQ

Start Date
04/26/2017

Last Date to Apply
05/31/2017

Description
The Seasonal Field Technician will assist with a fisheries acoustic survey. The employee will assist with the tagging process of juvenile steelhead at a local dam.

This position often requires working in suboptimal conditions (wet, cold, windy, or hot), with limited and irregular days off. The work will involve lifting, bending over or stooping, and standing for long periods of time. Applicant must be able to lift 50 lbs. All duties must be performed with a high degree of quality, uniformity, and timeliness. The employee must work as a team member and will be required work in close quarters.

Dates of Employment: April 26 through May 31, 2017. To Apply: Please send resume to employment@blueleafenviro.com
